

Lied "Träumt Euren Traum, fangt an"

(fangt an, an Eure Träume zu glauben und daran zu arbeiten)

Dream your dream - Start up! (Ur-Version 1997)

Start up, let's come together
Start up, we have a dream
Start up, we want the future
Start up with everybody - now

There was an **old magic witch in the wood**
and with the **power of the treasury** she put
the young foreign people in jail
to work for free and sent no mail

But there was also a **heroic duke**
who spoke several languages so he understood - Duke = Herzog
the problems of the people either young and old
and with his thoughts he sent a Ray of gold

The duke was the founder of a new age
he translates their problems to a stage
the stage which everybody understood
the power of dance and music in the wood.

Start up, let's begin together
Start up, we have a dream
Start up, we want the future
Start up with everybody - now

So they blow up the wall of their jail
starting a journey to search for the trail
they are fighting against a giant as David did
making sport for training but didn't smoke shit

- Der gemeinsame Aufbruch der
Jugend -

For their **European Dream** they started a race
working hard but with confidence in their face
they are developing a new medium to communicate
world wide with their own language before it is too late
The Duke was the founder of a new age
he translates their ideas to a stage
the stage who everbody understood
the power of dance and music in the wood

Start up, let's sing together
Start up, we have a dream
Start up, we want the future
Start up with everybody

Dream your dream
when you hear the song now
Dream your dream
when you hear the song

Start up, let's walk together
Start up, we have a dream
Start up, we want the future
Start up with everybody - start now!

Start up

Start up with everybody
"Start now" and "GO"

Komposition: Jürgen Baumgart / Alfred Wilhelm / Karl-Heinz Krummeck

Arrangement: Jürgen Baumgart / Alfred Wilhelm

Text: Karl-Heinz Krummeck

"Kraft des neuen Mutes"!

(Europas Nationen, vereint im **Geist des Aufbruches** von 1789, huldigen der Statue der Bürgerrechte)
(Litographie von Frédéric Sorrieu, 1848)

Wie sagte doch unser **Bundespräsident Roman Herzog** in seiner Berliner Rede:

"Visionen sind nichts anderes als Strategien des Handelns."

Glauben wir an die "Kraft des neuen Mutes"!
